PERKINS AND FISH ARE APPOINTED

A telegram was received yesterday from Senator Sams stating that the appointments of J. W. Perkins as judge and Bert Fish as solicitor of the Criminal Court of Record had been sent to the Senate and had been confirmed. Until their commissions are received, neither gentlemen is sure when his term of office will begin, but it is supposed that they will assume their new duties June 20, when the old commissions expire. They did not look for their appointments to be made and confirmed for several weeks yet, and were taken entirely by surprise when the telegram was received.

CARD OF THANKS.

Mr. and Mrs. S. J. Herbert and family request THE NEWS to extend their heartfelt thanks to the many kind friends who helped them by word and act at the time of their recent bereavement.

The national banks of Kansas are making strenuous efforts to be permitted to participate in the benefits of the bank deposit guarantee law of that state. Already they are suffering by the competition of the state banks which offer their depositors perfect security, and the senators from the state are besieging the law department of the government at Washington for a change of the ruling which prohibits the participation of national banks. The ruling, when it was made, reflected the self-opinionate opposition of the department to a guarantee law more than the equities of the situation.

It is, in the ultimate, extremely doubtful if the congress itself has the power to establish a bank in a state when the bank declines to com-

ply with the laws of that state. By common consent national banks have been excused from certain provisions of state laws, but if pushed to the bottom it might prove to be illegal. And when, as in this case, the obstruction is merely a ruling of a department at Washington rather than the explicit language of a statute, the objections of the national banks of Kansas are doubly strengthened. It would seem not to be good policy for the government to hamper national banks so that they could not freely compete with state and private banks.—Tampa Times.

ASSAULT CASE FROM DAYTONA

Charlie Sharp, a white man, was brought over from Daytona the first of the week and is now held in the county jail. Sharp is charged with an assault on one Becker, another white man. Becker was struck over the head with a 22-calibre rifle and his life is despaired of. It is thought that his skull may have been fractured. Justice Titus committed Sharp without bail pending the results of Becker's wounds.

The printing press has made presidents, killed poets, furnished bustles for beauties and polished genius with criticism. It has made the world get up at roll call every morning, given pupils lungs of iron and voice of steel. It has set the price on a bushel of wheat and made the country postoffice the glimmering goal of country scribes. It has curtailed the power of kings. It has converted bankers into paupers and made lawyers out of college presidents. It has educated the homeless and robbed the philosopher of his reason. It smiles and kicks, cries and dies, but it cannot be run to suit everybody, and the editor is a fool who tries.—Ex.
